

NewsRoom Daily Activity Plan

It's never been more important to share positive news stories with our children! Stories about good news, interesting news or even strange news can be a great way to help your child explore the world around them.

Our suggested structure is here to help your child engage with good news stories and practise their key learning skills. By using the tasks, your child will be able to learn about positive things happening across the world at this time. It will also allow them to practise their reading, writing and investigating skills.

Open the news article for your child's age and look at the picture. Ask your child questions about the image and headline.

- What could this story be about?
- Why do you think the editor chose that picture?
- What might have happened?

(2–3 minutes)

As they read the article, or after they have finished, talk to them about it. When thinking of your own questions, use the 5Ws to help you. For example:

- What has happened?
- Who is the news story about?
- Where did it happen?
- When did it happen?
- Why did it happen? Why is this story in the news?

(5 minutes)

Encourage your child to read all of the questions first. Then, see if they can answer any from memory. Teach them to look back at the news story to help them answer the trickier questions and to check their answers. If they got any wrong, use the answer sheet to help them understand their mistakes. Finally, explain how to answer those types of questions more successfully next time.

(10 minutes)

Robot Tours Museum to Help People View Art

Questions

- How long are the tours?
- However, one museum has come up with a way of letting people virtually stroll the galleries using a robot!
Tick the closest word to stroll in this sentence.
☐ walk
☐ push
☐ run
☐ view
- Why do you think Banky depicted an NHS nurse as a superhero?
- Tick whether each statement is true or false.

	True	False
The robots can control themselves.		
The robots can be controlled from miles away.		

Look at the activities on the Task Sheet and the Image Sheet. These are designed to deepen your child's understanding. The activities on the Task Sheet encourage them to explore, investigate or write about topics linked to the story. The activities on the Image Sheet encourage your child to solve a maths problem, create, paint or build something and even discuss a philosophical question linked to the story.

Robot Tours

Write

All computers, like the robots in this article, follow algorithms to complete tasks. These robot arms are implemented using coding.

Chasing is all about creating a sequence of clear and straightforward instructions. However, you don't need a computer to practise writing.

One use of the coding activity sheets contained in the resource pack is to write your own instructions to process coding coding.

Explore

Art can take many forms. You may have seen art in your walls at home, ornaments and sculptures on shelves or inside planes or even illustrations and drawings in your books.

Pretend your home is an art gallery and
