

Y5 Transition task- July 2020

A big hello from all the Year 5 staff,

Transition day will be a little different this year, but your teachers can't wait to find out all about you all. Hopefully you will have seen the 'Transition video' that each class teacher has put together for you, these should allow you see your new teacher/s and classroom (virtually) and allow you to find out a little about the exciting Y5 curriculum. We would love to know a little more about you though, and to do so, we would like you to complete the following task:

Transition Task: Produce a piece of 'Wordle' word art all about YOU for our class display.

Help: What is 'Wordle' word art? A **Wordle** is a visual depiction or cloud of words all about a specific subject. Here is an example of a Y5 Wordle:

We would like you to produce a piece of Wordle word art all about **YOU**. You can generate a Wordle by using a web-based tool like <https://wordart.com/create>. You simply type in words that relate to **YOU**, starting with your name, and then experiment with the different SHAPES, FONTS, LAYOUTS and STYLES. The colourful Wordle graphic will then be generated for you when you click the red 'Visualise' button. It will look a little like the example above but will be unique to you. Have fun! We can't wait to learn more about you.

You must: We ask that you please include your name first - putting it first on your list will ensure it goes in the centre of your word art.

You could : Include things like; hobbies, the names of special people in your life, favourite subjects ,goals for the future, favourite foods etc 😊.

What next? Once you are happy with your piece of Wordle word art, please email it to your teacher by clicking on the **SHARE** tab at the top of the screen and sending it to:
