

DAY 5

Look how much I've grown!

We have learnt lots about how plants grow and you have thought about how your Sunflower might change over the Summer holidays.

Can you think about how you have grown during your time in Year 1? What can you do now that you couldn't in Reception? This could be something at school or something you do at home or as a hobby. How else have you changed in this year? Use the 'Look how much I've grown' template saved below to write down your ideas. If you don't have enough room, you could create your own flower to write on.
